Jede 800 Evolution

fully automatic, totally hygienic,
easy to maintain

Evolve with this next generation beverage machine. The Jede 800 Evolution is an In-Cup drinks system with portion controlled ingredients pre-packed within each cup. The cups are hermetically sealed in a conditioned area to guarantee high quality food safety. With a capacity of up to 800 cups a wide choice of satisfying drinks are available to choose from. Using leading brand names such as Nestle, Tetley and Cadburys there is sure to be something that suits your taste. This smart thinking machine is easy to operate using the one touch button display and has a variety of payment options from standard coin-operated to monitored free drinks system. As an original additional option, the machine can also be fitted with a built-in cooler for serving cold drinks. The Jede 800E will fit into almost all environments. Attractively designed with drinks served in seconds this machine ensures that your customers and staff get every enjoyment out of their well-deserved coffee break.
